INSTALLATION INSTRUCTION

ASTRO 2" LED - Remodel Housing

A1RS-3661-DW, A1RS-4661-DW

INSTALLATION ACCESSORIES

1. At the point of installation, cut a 3 1/2" round hole for a round (See **FIG. 1**).
2. Pull building supply wires through ceiling cutout and open fixture junction box door (See **FIG. 2**). Remove desired housing knockout and feed building wires into housing using appropriate connector.

FIG. 1

FIG. 2

3. Connect fixture wires to building wires: insert each supply wire into appropriate junction box connector. This fixture features electronic low voltage (ELV) or 0-10V dimming capabilities. To utilize ELV, wire black (line hot), white (line neutral), and green (ground) in accordance to dimmer specifications.

To utilize 0-10V dimming, wire purple (dim+), pink or gray (dim-), black (line hot), white (line neutral) and green (ground) in accordance to dimmer specifications.

When not using a dimmer, connect black fixture wire to hot, white fixture wire to neutral and green fixture wire to ground. Leave all other wires capped individually (See **FIG. 3**).

4. Place all wiring and connectors back in junction box and replace the junction box's cover (See **FIG. 4**).
